### Customising Direct Stitch Selection

You can assign your favourite stitch pattern from Mode 2 to the direct pattern selection screen. Buttonholes can also be included as a favourite stitch pattern.

Original screen

Customised screen

### Superior Needle Threader

Threading could not be easier. Set your thread, push down the lever and release. The superior needle threader's advanced design feeds the thread through the eye of the needle with precise accuracy every time.

### One-step Needle Plate Conversion

**Industry first** – This is the second domestic flatbed sewing machine that is equipped with one-step needle plate conversion. Simply push the button to release the plate and snap another one in place. This model has 2 needle plates – standard, straight with left, middle and right needles holes plus the HP high performance.

### 1,000 Stitches Per Minute

**Industry first** – The fastest sewing machine with a maximum sewing speed of 1,000 stitches per minute. A wide extension table is available to purchase for this model giving the sewist a huge flatbed work area.

### Foot Pressure Gauge

This computerised model gives you manual control of the foot pressure which allows small intricate adjustments so suit your fabric type. Adjustment is via the dial on the top of the machine.
